

Cookies:

A "cookie" is a small piece of information stored by a web server on a web browser so it can be later read back from that browser. Cookies are useful for enabling the browser to remember information specific to a given user. We place both permanent and temporary cookies in your computer's hard drive. The cookies do not contain any of your personally identifiable information.

We use data collection devices such as "cookies" on certain pages of the Website to help analyse our web page flow, measure promotional effectiveness, and promote trust and safety. "Cookies" are small files placed on your hard drive that assist us in providing our services. We offer certain features that are only available through the use of a "cookie". We also use cookies to allow you to enter your password less frequently during a session. Cookies can also help us provide information that is targeted to your interests. Most cookies are "session cookies," meaning that they are automatically deleted from your hard drive at the end of a session. You are always free to decline our cookies if your browser permits, although in that case you may not be able to use certain features on the Website and you may be required to re-enter your password more frequently during a session.

Additionally, you may encounter "cookies" or other similar devices on certain pages of the Website that are placed by third parties. We do not control the use of cookies by third parties.
